I have wanted to write a short
note concerning the response to
the article mentioning a board. The
information concerning my title disappeared
[illegible]

I am very touched by your note to
Walter about me. As the months have passed
I realize more and more how significant that
year in Vienna was for me personally. You had
given me so much and I felt like a little girl
learning it all. I only hope I was a credit to
you.
